- B^+: via the decay channel $B^+ \rightarrow J/\psi K^+ \rightarrow \mu^+\mu^-K^+$
- Branching ratio = 6.03×10^{-5}

- B_s^0: using the decay channel $B_s^0 \rightarrow J/\psi \phi \rightarrow \mu^+\mu^-K^+K^-$
- Branching ratio = 3.17×10^{-5}
